

Hey guys , I am ashwini and i am ronak . I am a software developer working at MAANG ! and i manage influencers like her , i take care of all the business and operations part of her social media !

Before starting let me tell you that this video is the crash course , we have kept it short , crisp and too the point . **this is not any ordinary long lengthy course where you get bored. We have cut all the crap , and we will discuss only pure laernings & tactics which are tried and tested by us !**

A very very detailed notes are provided in the pdf format . and agar vo aache se padh liya i can gaurantee you will become a linkedin master within no time ! Also i want you to take a pen and a paper , and jo bhi hum discuss karenge just one liner notes of it , point wise . **kyuki hume bhi pata hai tum vo detailed pdf aache se nahi padhne wale** , isiliye humne sections banaye hai , see the index and jump upon that part !

-

To chaliye shuru karte hai , bina kisi.....(censored)

Bhai par mai kyu linkedin shuru karu , mai to college me hu , mere to mazze karne ke din hai , mai kyu proffessional wolrd me enter karu ?

Farak nahi padta ki tum college student ho , working professional ho ya small business owner ho , to aaj ki date me linkedin bahut zaroori hai !

Vo kaise ??

2016 me tumne yt shuru nahi kiya , 2020 me tiktok pe content nahi banaya isiliye aaj tum apne fav cretors ko dekhke wish karte ho , ki kash meri life bhi aisi hoti !

Content creator banna ho , ya job chaiye , ya promotion chaiye , ya apne business me sales chaiye , aaj ke time me linkedin is the one which can help you to achieve all of these !

YOU CAN'T AFFORD TO IGNORE IT !

Lets assume hum dono ek tier 3 college me ho metro cities se durr , and humne individually bahut he aache projects bnaye hai .

But mai linkedin pe active me , mere bahut saare connections in the industry

, so when i shared my project on linkedin i got tons of messages and appreciation , and unme se he hr ko mera project pasand aa gaya and i got an internship !

And me on the other hand jo linkedin pe active nahi hai , mujhe sirf mere college ke professors and dosto ne congratulate kiya , and party bhi mang li !

SEE THE DIFFERENCE - how a social presence can make a change !

And this also applies you working professionals and personal brand is the best way to get leads and sales if you are a business owner .

And vaise bhi aaj ki date me insta pe dekhna and sales lana kafi mushkil and mehanga ho gaya hai !

So now i think you've got enough reasons to start creating content on linkedin! And trust me ye bahut easy hai and bahut kam time leta hai !

Insta pe reels banane se to bahut he kaam time leta hai !

-

Agar ab tumne apna mann bana liya linkedin start karne ka to thoda tumhare profile pe bhi nazar daal lete hai !

Your profile acts as the store front , one simple rule : jo dekhta hai vohe beekta hai , and you have to sell your project , skills or any other thing here ! To profile aachi banani hai hume pehle .

Major components : profile photo and headline

Yehe do cheez hai jo tumhari profile khole bina he dekh jati hai , jab tum kisi ko message or connection request bhejte ho to !

To profile image thodi professional rakho , agar koi aachi photo nahi hai to casual rakho ! **another thing , puri full photo nahi raakhni hai jisme tum dekh he nahi rahe ho karke !** kamar se sar tak is fine !

And jo headline hai , consider it as a one line pitch !

It should tell people *what you do + who you help + what outcome you deliver*.
Next is about section , isko apne resume jaise treat mat karo , its about you ,
your story ! pdf me to detail me diya , kaise likhna hai about section , lekin ai
ke zamane me itni mehnat kon kare , to maine pdf me prompt diya hua hai
uske liye !

Experience and skills sections to tumhe he dalna padega : but see to it ki agar
college me ho to choti se choti cheez dalo jo tumne kari hai , and working
professional ho to try to show the impact you've created , not just
responsibilities that you carried !

And profile photo and cover image ke liye simply use canva , zyada dimag mat
lagao , keep it simple and the cover image should help you convey your needs
, bas thats it !

**We all know - in today's date , network is the real networth ! and i have
personally experienced this . maine dekha hai the drastic change in my life
before and after linkedin !**

You attract opportunities , friends , people of your interest, and literally linkedin
can speed up the process ! things gets really easy with linkedin connections !

**Consider me as your elder sibling and trust me here : CONNECTIONS
BANANA CHALU KARO LINKEDIN PE .**

Kon kaise kab help kar dega tumhari you never know !

In today's world, network is the real net worth and I've experienced this
personally. After becoming active on LinkedIn, my life changed drastically. I
started connecting with CEOs, co-founders, CFOs people I wouldn't normally
have access to and got to learn directly from them. I've received multiple calls
from companies even when I wasn't actively looking. That's the power of
visibility and networking.

LinkedIn helped me build genuine two-way relationships, I help people, and maybe in future i can get the favour back.. So trust me and start building connections.

Also don't reach out to just 2 people and then start complaining that no one replied. Increase your effort. Reach out to at least 15 relevant people, yaar atleast 2-3 will definitely respond. It's a numbers game. The same logic applies to job hiring as well. Consistent effort and smart outreach always work.

Bhai ai ke bina to koi bhi task pura nahi ho sakta ! to linkedin pe kyu nahi ! **We have provided the detailed structure and prompt examples that you can use to make content or anything useful !** and we want tum khud se bhi prompts banao, thats the best way you will learn and get the best result according to you requirement ! **Just check out the pdf !**

Dekho now we will tell you one the important part. **How to build connections and how to manage and grow relationship with your connections.**

Btw she is an expert in building connections and managing them , so dhyan se suno !

See, here's the harsh truth , that everyone gets tons of connection req and messages every day ! and trust me kisi ke pas itna time nahi hota to check all the dms and request , also this is my personal experience ! so , this is the main reason you have to stand out !

And here comes PERSONALISATION, vohe boring messages , "i saw the jd , can you refer me ","i am open to work , does your company have any vacancy ??" ! ye karna band kardo , kuch nahi hone wala isse !

Personalized message ai se likhwao, nahi aata , dw pdf me expalination and prompts diye hue hai !

And dekho, agar tumahre placements nazdeek hai yiu need referals , and

log tumahre messgaes nahi dekh rahe , to try these two things , pehla ki agar paise hai to linkedin premium khareed lo kuch time ke liye jisse tum connection ke bhi dm kar sakte ho , and paise nahi hai , to besharmo jaise unke posts pe comment karna chalu kardo , obv aache comments and keep in mind be professional here ! agar placements sar pe hai and you need referral or anything else , tab tumhe ye nahi sochna hai ki maine inko kitni bar dm kiya hai , vo kya sochenge mere bare me etc etc , nahi , tumhe apna kaam nikalwana hai !

We need to be very strategic here. Let me share a personal story. There was a company I really wanted to apply to and I had the HR's LinkedIn profile. I sent a normal message but got no response. Instead of stopping there, I studied her profile properly and found out that she had written a book. I understood her interests first, used an LLM to get a quick summary, and framed a thoughtful question around her work. Then I went back to her DM, not to ask for a referral immediately, but to talk about her book and her perspective. She replied. We had a genuine conversation around her interest, trust and rapport started building, and only after that did I ask for a referral. I ended up getting the interview call. The lesson is simple: first talk about their interests, add value, build trust, and then present your ask. In networking, relationship comes before benefit. If you're not getting results, don't quit—be more strategic, increase your effort, and keep going.

See i am repeating this again , consider this as a crash course , we have cut all the crap . yaha pe we'll discuss the problem and give you the solution . SEEDHI BAAT , NO BAKWAAS ! ye koi boring lecture nahi hai , and lamba pdf nhi padhna to one liner notes khud se bana lo !

Chalo ab tum kuch bhi jugaad karke , apne idol ke dm me pauch gaye . from there you have 2 choices , ki tum apna kaam karo aur nikal lo , ya fir you grow your relationship with your connection !

And agar tum samajdar hoge to you would choose the second option !

Maan lo ki tumhara purpose full fill ho chuka hai with the connection , and you chose to grow relationship with them so now you have 3 ways to do that !

Passive engagement

Active engagement

Deep engagement

See what is passive engagement, it is when you occasionally when you open linkedin and time raha to you reply them , you comment on their posts , ya tum sirf kaam ke liye jate ho unke dm me ! to isse kya hota hai you are somewhat visible to them ! **we can say this as the starting phase of the relationship!**

We personally recommend that you should engagement actively , like tum unke posts share kar rahe ho within your network , repost karre ho agar kuch aacha logo to , regularly comment karre ko , tum unko dusre aache posts share kar rahe ho , jo unhe kaam aa sake ya jo relatable ho ! **yes and this is the stage where the relationship grow , as you are adding value in someone's life !**

And agar deeply engage karna hai to you should first engage actively , deep engagement is more kind of becoming friends , like dosto jaise bat karre rahe ho , nothing for benefit, just random life and work talks , sharing your experiences just like friends . this is what we call a real relationship with your connection .

And ha ye sab tuhare socializing skills pe bhi depend karta hai , and nahi aati baat karne , to you always have ai with you !

And trust me building connection is the one thing you will never regret in life !

And dont worry , templates pdf me diye hue hai , but fir bhi try it by yourself !

-see as we mentioned earlier , ki comment karna is the best way to be seen and grow ! see as a creator i am revealing secrets , ki sare content creators dms dekhe na dekhe lekin comments zaroor dekhte hai !

Inhe apne social presence and image se bahut farak padta hai , they do check what people are thinking about them and their content . isiliye logo ke posts pe meaningful comment karo , uske 2 faide hai , there are high chances ki tum vo creator ki nazar me aa jao and dusra ye ki definately tumhare profile pe traffic badhega , coz baki log bhi vo comment sections dekhte hai and agar tumne kuch meaningful comment kiya hai to log tumhari profile bhi aake checkout zaroor karenge !

Isiliye , tum meri posts pe bhi regularly comments kar sakte ho !

-

Bhai ab baat karte hai sabse important cheez ki , what to post , how to post and when to post ! and for the content game we have our expert here!

Most people overthink LinkedIn content, unlike reels , and vo kafi hadd tak sahi bhi hai ! reels pe tum apna muh utha ke kuch bhi bol dete ho galiya de dete ho , reel viral ho jati hai , but linkedin pe aisa nahi hai !

Linkedin pe 2 major format pe content chalta hai , posts and carousels , videos bhi dal sakte ho , it performs well lekin agar tumahre time nahi hai scripting shooting and editing ka , so you can just go with linkedin posts and carousel !

So see this is a normal post , where you write your content , and photo you can use anything , agar topic se related hai to theek hai warna zyada dimag mat lagao , apni koi bhi pic daldo !

And this is a carousel , instagram pe jaise carousels hote hai vaise he hai , but yaha pe you have to provide some value , data , numbers storytelling ,

anything! Ek carousel banane me tumhe thoda time lagega lekin ofc reel banane se to kam he time lagega ! and ye yaad rakhna beautiful and meaningful carousels will get you good impressions !

Now we'll tell you the 6 types of content that works well on linkedin , dosent matter agar tum college me ho , job karte ho ya business owner ho , these 8 things will definitely work agar sahi se consistently kiya to , and also dont stick to any one niche or genre start me , try out everything and and then decide ki tumhe kya pasand hai karna hai what worked well for you !

To pehli cheez hai

Personal stories & lessons learned : bhai ye sabse best cheez hai and kafi aachi reach mil sakti hai hai kyuki ye relatable hota hai , like starting your post with "Here's what I learned from failing my first startup" or "3 mistakes I made as a new joinee" ! story telling aachi rahi , log karenge relate and karenge tumhare stories ko follow .

Zyada dimag nahi lagana hai , koi bhi story ho dalo , college project ho , internship journey ho , referral system ho , tumhara product ho, tumhari journey , kuch bhi ho just daldo and get better in the process !

Educational & How-to content : dekho bhai log linkedin pe padhne , seekhne , and apne compitition pe nazar rakhne aate hai ! and agar tum unko kam time me kuch seekha doge which means tum unke life me kuch value add karoge , that would build trust and you willl grow organically ! and obv pdf me sab diya hua hai , so dw!

Industry insights & opinions : bhai opinions do wonders on linkedin , tum koooi bhi trending topic pe apna opinion dalo, what you think , how it hould be done , this and that , and see how people come in comments to counter you , vo bhaut healthy discussion hota hai , jiska matlab , enagement badhi matlab reach badhi ! also apne industry ke bare me dusro ko aware karo , batao , seekhao logo and help them !

Also keep in mind , content regulary post kaarne ke sath sath connections

bhi badhane hai , dusro ke posts pe bhi regularly comment karna ! see linkedin content game is a whole process , ek bhi step miss kiya , results nahi aayenge !

Behind-the-scenes & day-in-the-life : bhai sabse easy cheez hai , agar tumhare pas time nahi sochne ka , to sirf lifestyle post daldo ! a day as a jobless man trying to find a job , a day in my college , a day as a product manager etc etc ! sabse easy cheez hai ye to post ! kabhi you dont have time ya samaj nahi raha kya post karna hai , use this as a last minuite help ! lekin streak mat todna , din ka ek post karna hai to karna hai ! thats it ! **consistency matters**

Career milestones & wins: promotion hua , job lag gayi , increment hua, **project hua research paper, course kiya** wagera wagera , sab dalo , chote se chota update ya badi announcement sab dalo , and for some weird reason ye wale posts bahut chalte hai . funding mil gayi , post karo , manager ne daat diya post karo , kuch aacha hi gaya post karo , kuch bura ho gaya post karo ! lekin you dont have to shitpost , strtegitically hook create karo and fir apni stroy batao and try to add some vlaue at the end !

Questions & polls : ye mai tumhe example se samjaungi , i regulary polls dalti hu about dsa questions , (koi bhi question bol dena verbeally) , and uske 4 options . and vo question ka sahi answer and explanation mai comment me dal deti hu ! polls se engagement bahut badhti hai , log padhte hai sochte hai , they give time to your poll , and vo sahi answer check karne ke liye comment section bhi open karte hai , and thats where you win as a content master !

Tum bhi apni niche ke according polls dal sakte ho , make it tricky to log thoda ruke tumhare posts pe !

Chalo bhai ek bonus tip deta hu tumhe , which we have figured out and it works outstanding , sabse zyada yehe chalta hai and we have tested it . memes , yes linkedin pe memes bahut viral hai , lekin there's a catch , meme me galiya nahi honi chaiye and vo relatbale hona chaiye to your target

audience ! and dusri cheez hai motivational quotes . zyada dimag nahi lagana hai , insta pe bahut motivational reels aati hai , **copy paste karo** **Unse idea lo,** **adapt karo, post karo**, aachi reach milegi ! simple , seedhi baat no bakwaas ! - But ye yaad rakho ki sirf memes and motivation dalne se tumhari personal brand nahi banegi , log tumhe nahi janege by your name , tum sirf koi random meme page banke reh jaoge on linkedin . so use it occasionally and strategically . personal brand banana hai , job chiye , clients chayie , connections banane hai to sirf memes and motivation se kuch nahi hoga , brnads bhi nahi approach karenge , so use it wisely !

Aur ek baat clear kar du, Main tech background se hoon.Lekin mere bahut saare non-tech influencer friends are in MBA, CA, finance, marketing, HR, consulting niche and trust me, LinkedIn sirf tech logon ke liye nahi hai.Jo bhi strategies humne discuss ki hain, ye har niche par apply hoti hain.

And Here's The golden rule, LinkedIn loves content that either teaches something, tells a story, or starts a conversation.

-

Ab post and carousel bana rahe ho to uske structure ka bhi dhyan rakhna , bahuut simple hai :

Hook

Body

CTA - call to action

Chahe post ho ya carousel - same he format rakho , ekadum easy and simple hai !

And reels ki he tarah yaha par bhi sabse main part is the hook , agar scroll karte karte , mujhe tumhari post ki pehli 2 lines ya carousel ka first page ,

attractive ya interesting nahi laga , i will simply scroll . seedhi baat hai bhai ! Tumhara kaam hai logo ko pakad ke rakhna and uske liye you have only first two lines and the 1 page ! puri game itni he hai ! and also visual hook , tum photo kya dal rahe ho is as important as the hook , kyuki vo 2 lines padhne se bhi pehle nazar photo pe he jayegi . dekho samajdaar ko ishara kafi hai ! photo relatable dalo post se ! another thing ye ki tum bhale he pura post carousel gpt se banao , lekin hook khud ka dimag lagake banana , tumhari audience ke hisab se , ye ek tip follow karo bhai , drastic change aayega impressions me ! Sab ai use karte hai , tum bhi karo lekin hook khud se banao ! iske peeche logic mat dhundho , tried and tested hai , bharosa rakho and karo !

And also content bana ke rakho , tum ai se aaram se 1-2 ghante me pure hafte ka content bana ke ready rakh sakte ho ! bahut easy hai guys , prompts diye hue hai ! try it byyourself , and explore new things , just dont stick to this course , as you progress , you will learn new things , isiliye kehti hu explore on your own !

Bhai aur ek golden tip lelo , start me jugaad karo reach ke liye ! tumne 20-25 post dale uske baad shayad koi usme se viral ho , lekin jo hum bata rahe hai vo karo , bahut kam time mai chale jaoge viral ! dekho ek secret batata hu , linkedin pe reach aati hai shares se and dusra comment se ! ab log kitna share karenge tumhari post vo to post kaisi hai uspe depend karta hai , uska jugaad nahi kar sakte hai , lekin comments ka jugaad tum kar sakte ho ! kaise vo bhi batate hai!

Whatsapp, telegram pe bahut saare grps hote hai jo khud influencer banate hai and vaha pe sab apne apne posts dalte hai and baki sab comment larte hai , to aise sabki reach badhti hai ! and isme koi sharam wali baat nahi hai , jab ak do char hazar followers nahi ho jate and ja tak tum content game and linkedin ka algo samaj na lo tab tak ye karne me koi peoblem nahi hai !
Bas ye pata hona chaiye ki rukna kab hai !

And baki content ki baat rahi , consistently 30 din ke liye alag alag type ka content try karo give some time , and study ki which post performed well and why and try to recreate posts with the successful factors ! but i want one thing

from you , atleast for 60 days you will not quit, jaisa humne kaha hai vaisa karo for 60 days , and 60 days ke baad bhi growth nahi aaye to mai tumhe ye course ke paise vapas kar dunga ! but i need one assurity , himmat hai to 60 days consistently kar ke dekhao !

Bar bar keh rahe hai , cheezo ko simple rakho , zyada dimag mat lagao , chupchap google sheets use karo content track karne ke liye , date , content , posted or not , bas 3 columns . aur fancy karna hai to vo content clander ka bhi option aata hai google sheet me use that ! can simply canva use karo , starting me kuch purchase karne ki zaroorat nahi koi subscription nahi , sab cheeze free me available hai ! bas 60 din chahiye thats it ! bade influencer ke posts dekho kaise bana rahe hai , unke viral topics lo and uske around banao , if you want maine mere kuch kuch viral posts featured section me dale hai , vaha hai ideas lelo and daldo ! jo content ek bar chala hai , tamper karke vapas dala 100 percent chalega !

Lekin yaad rakhna ye wali cheez bhi band kab karni hai , warna tumhari credibility zero he rahegi , to ye sab jugaad jo humne bataye hai vo kabhi kabhi he use karna , soch samaj ke use karna coz ye instagram nahi hai log bhul jayenge , ye linkedin hai , your credibility is everything on this platform , dont loose that !

And kuch time baad jab tum familiar ho jao ye platform you can also try newsletter , vo start me itna imp nahi hai lekin pdf me diya hua hai !

Now lets come to the most awaited part of the course, maybe the reason you are here : ki how to earn money from linkedin.

Also most common question i have seen people asking me,

“Kya LinkedIn se bhi paisa kamaya jaata hai?”

“Views pe paise milte hain?”

“Job post daalte ho to company paise deti hai?”

“Itna consistently post kar rahe ho...isey bhi paise ate hai?”

Chalo, aaj iska clear answer dete hain.

Lets deep dive into LinkedIn Monetization Model. LinkedIn views pe paise nahi deta. Yaha YouTube jaisa ad revenue model nahi hai.

Toh phir paise kaha se ate ? LinkedIn pe paisa aata hai through:

Sponsored posts – Jab brand tumhe pay karta hai apne product ya service ko tumhare content ke through promote karne ke liye.

Brand collaborations – Long-term ya campaign-based partnerships jahan tum brand ke saath multiple posts / activities karte ho.

Consulting – Jab log tumhari expertise ke liye directly tumhe hire karte hain guidance ya strategy ke liye.

Services – Tum apni skills sell karte ho (resume building, marketing, design, tech, coaching, etc.).

Leads – Tumhara content dekhkar log khud approach karte hain for jobs, projects, clients, or business opportunities.

Ab sabse important part. Sponsor milta kaise hai?

Wait mat karo ki brand khud DM kare.

You need to be proactive and strategic here, Apne connections me dekho kisne brand collab kiya hai. Ask them Kis email / person se contact hua tha? Timeline kya thi? Content unhone khud banaya ya brand ne script diya tha?

Aur sirf itna hi nahi. Unse yeh bhi samjho: Brand ne kya expect kiya tha? (Impressions? Leads? Signups?), Reporting kaise diya tha? Screenshot? Analytics PDF?, Kitne din me payment release hoga?

No one openly shares these details publicly, but through networking, you get access to real insights. Aur ek important cheez: Sirf information lene mat jao.

Relationship build karo. Value bhi add karo. Networking ka matlab sirf “bhai sponsor ka contact de do” nahi hota. Long-term connection banao.

Reels dekhte ho Instagram pe? Samajh aata hai brand deal hai? Bas Same brand ko LinkedIn ke liye approach karo. I did the same Ek brand collab reel dekhi. Laga, ye meri LinkedIn audience ke liye relevant hai. Research kiya, pitched them and then the result : LinkedIn pe paid collaboration close ho gaya. Simple.

And there is one more golden opportunity - special sales days such as Black Friday, New Year, Republic Day, Independence Day, Christmas and Valentine's Day. In dates se 2–3 weeks pehle brands ko approach karo. Campaigns already plan ho rahe hote hain, budgets allocate ho chuke hote hain and there is high chances for conversion

And abhi tumhe ye question aa raha hoga - Brand ko pitch karte time kya bolna chahiye? Kaise prepared rahe?

Sabse pehle, media kit ready rakho. “Ye mera profile hai, dekh lo” professional pitch nahi hoti.

What all things will be in media kit?

1. Total followers

2. Avg impressions per post

3. Engagement rate : Kitne % log like, comment, share karte hain (basically audience kitni active hai)

4. Audience breakdown : Tumhari audience ka type (India %, students %, working professionals %, etc.).

5. Top performing posts : Tumhare best posts ke examples (proof of performance). And btw you can feature this as well on your linkedin profile.

6.Past collaborations : Pehle kin brands ke saath kaam kiya hai (credibility proof).

7. Clear niche : Tum exactly kis topic par content banate ho (career, tech, finance, MBA, memes, motivation etc.).

8.Contact Details

Ye ready ho gaya, toh tum prepared ho. Aur ek important cheez, Brand ko sirf reach nahi chahiye hoti.Unhe ROI chahiye hota hai.

So think like a marketer. Unko bolo: "I can create value-driven content, not just promotion.", "My audience trusts my recommendations." etc. Tab tum creator nahi, growth partner lagoge.

Ab sabse important aur uncomfortable sawal, kitna charge karein?

Yahi jagah par maximum creators confuse ho jaate hain.Ya toh bahut kam bol dete hain.Ya bina soche bahut zyada quote kar dete hain.

Sabse pehle apni worth define karo: Kitne impressions aa rahe hain?

Engagement kitna hai? Followers quality kya hai?

Pricing data pe based honi chahiye, guess pe nahi.

Start smart: Pehla deal high mat quote karo.Pehla deal experience ke liye crack karo.Second deal se price increase karo.

Sabse Badi Galti, Barter Collab & Undervaluing Yourself. Log apni value se kaam pe post kar dete hain.Free me kar dete hain. Barter me kar dete hain.

Mat karo.

Aisa karke tum sirf market ko pollute nahi kar rahe, tumhara bhi loss hai aur poori creators community ka bhi. Brand ko habit ho jaati hai free exposure ki. Phir jab kisi aur creator ko fair pay chahiye hota hai, brand compare karta hai. Professional bano. Agar collab kar rahe ho, toh structured deal karo : Clear deliverables, Clear pricing and Clear expectations. Apni respect pahile khud kro.

Deal crack ho gayi? Good. Ab ek post karke khatam mat karo. Long-term socho.

Offer them:

3 post package, 1 month association, Webinar + post combo, LinkedIn + Instagram bundle

Basically Retention is your real income.

Ek baar trust build ho gaya, toh repeat collaborations aate hain.

Also once you are able to crack deals, Don't Become Walking Billboard. Har dusra post sponsored hoga to trust girta hai.

Rule rakho:

4 value posts and 2-3 sponsored post

Audience trust toot gaya to brand deals bhi ruk jaate hain.

LinkedIn side hustle ban sakta hai

But only if you treat it like a business.

Consistency + positioning + smart outreach = paid collaborations.

See now lets talk about linkedin company page for your business ! its a bit different from your personal profile . jaise insta pe hota personal and professional account bas viase he linkedin company page me kuch features accessible ho jate hai , just tumhari company honi chahiye , company page ke liye ! see this section is for the business owner jo , a very short brief in the video , but i give you details in the pdf !

Agar aapka startup hai , if youre selling any products , obv you would be doing instagram , but you also need to do linkedin . bahut short me bataunga , linkedin pe you'll have premium audience , so sales hone ki probability linkedin pe badh jati hai , insta is all about numbers , linkedin is all about trust and experience , and ofc linkedin pe content banana for your brand is way easier than insta !

And linkedin company page ka sabse bada faida hai ki you get seo benefits , matlab your company name ranks in google search result ! and recruitment and leads generation easily ho jata hai on linkedin !

So if youre a business owner and not selling on linkedin , then you would be missing something !

And what we will suggest you na , linkedin pe settings open karo , thoda khud

se explore karo , coz tumhari requirement sabse aache se tumhe he pata hai , to jab khud se explore karoeg that would be better ! dont onlyu stick to the course , explore more things , do better !

Also one more andar ki baat i will tell , dekho ik ki when you surpass 20k followers you will get exposure to new opportunities ! and agar linkedin ko as a side hustle consider kar rahe ho so pls make sure you dont only depends on brand collab ! you need to make your personal brand , you need to build trust , you have to do something jisse log tumhe dekhe , sune , tumhari advice follow kare ! tab he you can make a personal brand ! agar ek bar personal brand ban gayi , then the platform dosent matter , linkedin ho insta ho , you will do well everywhere !

Trust me hum dono ka linkedin side hustle hai and the things that linkedin has given us is beyond our imaginations , and ofc money is one of them !

You can also try what i did in the process ! i gained trust of 40k followers and during that time i guided people in which i had strong knowledge , my topmate services ! i used to take one on one calls and guided them what they needed ! and vaha se credibility bahut badhti hai , those people are the genuine followers who trusts you ! to try to cross sell your services and products , dont just depend on brand collabs ! ye sab sochna and karna but first start posting content regularly !

See what i will say na ki imagine your goals or expectations form linkedin would be this , like level 1 2 3 and 4 , your goal is to reach at level 4 and motivation me you will start doing that ! but aisa ho sakta ki tum tumhare target time me level 4 tak na pauch pao , but you will definitely cross level 2 or maybe 3 ! so tumne progress kiya hai . nothing is going to be wasted , jo bhi karoge sab kaam he aayega ! agar tumhara goal ki tumhe linkedi se brand collab chaiye the , but nahi aaye , but kya pata networking ke waje se you get a job offer , kisiko tumhara product pasand aa jaye , you can raise funds , you never know !

I will again and again say that , the decision linkedin will change your life course in a very positive manner , and this is the one decision you will never regret !

And ha agar tumne ye course purchase kiya hai , to we both will personally look into your progress , after purchasing this course we assume that within 1 wk you will start implementing and exploring things and within one month you would have done enough research and experimenting ki tumhe kafi doubts honge , to for that you will get 2 live qna sessions with us , jaha pe we will discuss your problems and give you solutions !

And personally telling you jab tum mehnat karoge tab hume bhi azaa aayega to guide you !

So , 2 live qna sessions with us , pehla - after one month and dusra - after 2 months !

I told you to give me 60 days and you will become an expert !

And even after that if you need our help , we are always available to help you , we will keep you updated on linkedin !

Chalo ek aur pro tip dede jisse inke followers bahut jaldi badhenge and genuine personal brand banegi ?? dede

Jo tum content bana rahe ho , vo padh ke audience ko aisa nahi lagna chahiye ki yarr ye padh ke time waste ho gaya !

Pehle 2 line me he interest aana chahiye and jab koi tumhari post ko time de raha hai tab unko useful hona hai , agar mujhe laga ki ki iski posts padhke mera time waste ho raha hai , na kuch seekhne milta hai , na hassi aati hai kuch nahi hota , to mujhe tumhara naam yaad reh jayega , ki bhale kisi ki bhi post padh lu , lekin iski posts to nahi padhni hai ! negative image nahi banni chahiye tumhari , take care of that , agar negative image ban gayi fir tum chahe kitni achi posts banao you will not grow how you want ! sabse best example hai arjun kapoor !

Last thing we want to say : now that you have started , there is no looking back! Mehnat karo , grow karo , wishing you luck , and milte hai live qna session me !
